

Class rules

- **Before Class**

- Be fully prepared for the class
 - Clean board
 - Notebook
- Be punctual
- No need to ask for permission to enter or leave the classroom

- **In Class**

- Keep silent
- Exercises / Quizzes
- Do not use computers or mobile phones during the lecture time

- **After Class**

- Homework/Hands-on Labs on a case study
- Capstone project

OBJECT-ORIENTED PROGRAMMING

0. INTRODUCTION TO COURSE

Nguyen Thi Thu Trang
trangntt@soict.hust.edu.vn

Course objectives

- Common knowledge of object-oriented programming languages using Java, a pure OOP language
- Basic and elementary concepts and notations of object-oriented theory using Unified Modeling Language (UML).

Programming language/tools

- Modeling language: UML
- Software design tool: Astah
 - Free for students
- Programming language: Java
- IDE: Eclipse
- Version control: Github

Assessment

- Mid-term score: 50%
 - Homework/Exercise: 25%
 - Mini-Project: 45%
 - Quiz: 30%
 - Submission Channel: <https://github.com>
- Final score: 50%
 - Multi-choice (50%) + Written Exam (50%)

Class Participation & Bonus Points

- Quiz Challenge
 - Score based on accuracy
 - Top 1: 50K VND WinMart voucher (Kahoot-style ranking & Accuracy $\geq 85\%$)
- In-Class Collaboration
 - Ask meaningful questions & give valuable answers
 - Bonus points toward Midterm (max. 1 point/semester)
 - Comment on the corresponding thread in Teams during class to record your contribution (TA acknowledges)
- Class Feedback
 - Submit weekly feedback on the same day of the class
 - +0.5–1.0 points toward Quiz score
